Agreement on Student's Work Submitted to VeriGuide

VeriGuide is intended to help the school to assure that works submitted by students are original. The student, in submitting his/her work ("this Work") to VeriGuide, warrants that he/she is the lawful owner of the copyright of this Work. The student hereby grants a worldwide irrevocable non-exclusive perpetual licence in respect of the copyright in this Work to your school and VeriGuide. VeriGuide will use this Work for the following purposes.

(a) Checking that this Work is original

VeriGuide will produce comparison reports showing any apparent similarities between this Work and other works, in order to provide data for teachers to decide, in the context of the particular subjects, course and assignment. However, any such reports that show the author's identity will only be made available to teachers, administrators and relevant committees in the school with a legitimate responsibility for marking, grading, examining, degree and other awards, quality assurance, and where necessary, for student discipline.

(b) Anonymous archive for reference in checking that future works submitted by other students of the school are original

VeriGuide will store this Work anonymously in an archive, to serve as one of the bases for comparison with future works submitted by other students of the school, in order to establish that the latter are original. For this purpose, every effort will be made to ensure this Work will be stored in a manner that would not reveal the author's identity, and that in exhibiting any comparison with other work, only relevant sentences/ parts of this Work with apparent similarities will be cited. In order to help VeriGuide to achieve anonymity, this Work submitted should not contain any reference to the student's name or identity except in designated places on the front page of this Work (which will allow this information to be removed before archival).

(c) Research and statistical reports

Your school and VeriGuide will also use the material for research on the methodology of textual comparisons and evaluations, on teaching and learning, and for the compilation of statistical reports. For this purpose, only the anonymously archived material will be used, so that student identity is not revealed.
